DC Update

- The Chief of Staff at HHS co-founded the group responsible for creating the “DEI Watchlist.”
- CMS has updated physician payment and proposed extending telehealth flexibilities for FQHCs.
- The Section 330 NOA now includes language stating that “Continued support for this award may be subject to... Administration priorities and court orders.” The President’s FY26 Budget suggests maintaining flat funding for Section 330.
- There are requirements to implement the Executive Order on insulin and EpiPen pricing. Policies and procedures must be developed to provide reduced pricing to certain low-income patients, which will be necessary for our grant. Dom is currently addressing this.
- Next government shut down is possible September 30, 2025.

CHC News

- Chris has completed his site tour.
- Yomi Fabiyi, new CHRO, has completed his third week.
- Sad news – long time employee, Gwen Johnson in McCormick passed away July 19, 2025.
